

The Division Street Bus Rapid Transit (BRT) project will convert the existing Route 25 to BRT service, with new stations and roadway modifications that will provide faster, safer, and more reliable bus service. This summary highlights the features and opportunities relevant to future BRT stations.

This station will...

Connect to bike-friendly facilities, such as potential future bike lanes on W Sprague Avenue

Provide improved transportation connections to other bus routes and the Amtrak and Greyhound station

Support existing employment activity near the station, as well as potential future employment and ridership growth

Improve frequency of access to nearby destinations such as Satellite Diner & Lounge, Wave Sushi Island Grill, Chicken N More, and many other eateries and services

Station Features

- In-lane bus pad
- Existing sidewalk integrated into the station design
- 11' x 60' bus platform

Draft station drawing - design in progress

Street view of the station location, looking west (Google Street View)

Division BRT alignment, 2nd Ave to Riverside Ave

Aerial view of Sprague at Stevens - corridor rendering design in progress
