Waste Code:	D008
Waste Description:	Lead
Waste Code:	D009
Waste Description:	Mercury
Waste Code:	D011
Waste Description:	Silver
Waste Code:	D034
Waste Description:	Hexachloroethane
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent

DARIGOLD INC (Continued) **1000252818**

Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: U002
Waste Description: 2-Propanone (I) (Or) Acetone (I)

Waste Code: U220
Waste Description: Benzene, Methyl- (Or) Toluene

Waste Code: U239
Waste Description: Benzene, Dimethyl- (I,T) (Or) Xylene (I)

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

US BROWNFIELDS:

Name:	SPOKANE ROOFING
Address:	130 EAST SPRAGUE AVENUE
Recipient name:	City of Spokane
Grant type:	Assessment
Region:	10
Property Number:	35202.0606
Parcel size:	0.37
Latitude:	47.65725165
Longitude:	-117.4086281
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property is occupied by the headquarters of Spokane Roofing Company (Spokane Roofing). The Property consists of approximately 0.37 acres of land developed with a two-story ~2,000 square foot (sq. ft.) office, attached 3,100 sq. ft. garage and 960 sq. ft. workshop. The southeast corner of the site also contained a 360 sq. ft. open, three-sided covered garage. The southern portion of the Property is fenced and contains a gravel lot totaling ~9,540 sq. ft. Access to the gravel lot is via gates located on from E. 1st Ave. and South (S.) Cowley Street (St.). The Property is zoned as General Commercial (GC). Based on the historical records reviewed during this Phase I ESA, the Property was vacant from at least 1891 until it was first developed in 1958 for Spokane Roofing. City directories first list Spokane Roofing in 1959 and the Property is shown to have been developed in the 1962 aerial photograph. No other uses of the Property were identified. The Phase I ESA revealed the following evidence of recognized environmental conditions (RECs) in connection with the Property: A partially exposed, underground storage tank (UST) is located at the northwest corner of the Property, as visible from E. Sprague Ave. According to the Property owner, the UST has not been in use since at least their acquisition of the Property in 2002 and they had no further information regarding the UST. Stantec did not observe the presence of a vent or fill pipe during the site visit and no petroleum odors were noted in the soils surrounding the UST. The presence of a UST at the Property with no documentation of its historical uses, contents and integrity, as well as its potential to have resulted in releases of petroleum products to the environment is a REC for the Property. Historical records obtained from the City of Spokane Fire Department indicate that a permit was issued to Spokane Roofing on March 21, 1972 for the installation of a 2,000-gallon gasoline UST and a gasoline dispenser. The document has a handwritten note stating, tank & dispenser removed 7-19-88. There was no sketch in the documents provided to Stantec showing the location of the reported UST and associated dispenser. The absence of records documenting the assessment and removal of the UST, dispenser and product piping as well as their potential to have resulted in releases of gasoline and/or other petroleum products to the environment is a REC for the Property. The east adjacent property located at 210 E. Sprague Ave. is currently occupied by Curt s City Center Oil and Lube and a Penske Truck Rental facility that has been in operation since at least 2009. Historical records indicate that a

SPOKANE ROOFING (Continued) **1026464482**

retail gasoline station operated at this property between 1954 and 1969 and that the property has also been utilized for automotive repair, aluminum recycling, and as a junk dealer. The property was not listed in the environmental database report obtained by Stantec. The presence of a former gas station in close proximity to the Property (60 feet to the east) in combination with the lack of records documenting decommissioning and assessment of the associated former fueling system(s) is a REC for the Property. The north adjacent property located at 201 E. Sprague Ave. is presently occupied by Spokane Movers. Historical records indicate that in 1943 and 1947 a retail gasoline station operated at this Property. The presence of a former gas station in close proximity to the Property (100 feet to the north) in combination with the lack of records documenting decommissioning and assessment of the associated former fueling system(s) is a REC for the Property. The following business environmental risk (BER) was identified in connection with the Property: The main buildings on the Property appear to have been constructed in 1958. Based on their age, the buildings have an increased potential to contain asbestos, lead-based paint, polychlorinated biphenyls (PCBs), and other regulated bu

Highlights:	The Property is occupied by the headquarters of Spokane Roofing Company (Spokane Roofing). The Property consists of approximately 0.37 acres of land developed with a two-story ~2,000 square foot (sq. ft.) office, attached 3,100 sq. ft. garage and 960 sq. ft. workshop. The southeast corner of the site also contained a 360 sq. ft. open, three-sided covered garage. The southern portion of the Property is fenced and contains a gravel lot totaling ~9,540 sq. ft. Access to the gravel lot is via gates located on from E. 1st Ave. and South (S.) Cowley Street (St.). The Property is zoned as General Commercial (GC). Based on the historical records reviewed during this Phase I ESA, the Property was vacant from at least 1891 until it was first developed in 1958 for Spokane Roofing. City directories first list Spokane Roofing in 1959 and the Property is shown to have been developed in the 1962 aerial photograph. No other uses of the Property were identified. The Phase I ESA revealed the following evidence of recognized environmental conditions (RECs) in connection

SPOKANE ROOFING (Continued) **1026464482**

with the Property: A partially exposed, underground storage tank (UST) is located at the northwest corner of the Property, as visible from E. Sprague Ave. According to the Property owner, the UST has not been in use since at least their acquisition of the Property in 2002 and they had no further information regarding the UST. Stantec did not observe the presence of a vent or fill pipe during the site visit and no petroleum odors were noted in the soils surrounding the UST. Highlights:	The Property is occupied by the headquarters of Spokane Roofing Company (Spokane Roofing). The Property consists of approximately 0.37 acres of land developed with a two-story ~2,000 square foot (sq. ft.) office, attached 3,100 sq. ft. garage and 960 sq. ft. workshop. The southeast corner of the site also contained a 360 sq. ft. open, three-sided covered garage. The southern portion of the Property is fenced and contains a gravel lot totaling ~9,540 sq. ft. Access to the gravel lot is via gates located on from E. 1st Ave. and South (S.) Cowley Street (St.). The Property is zoned as General Commercial (GC). Based on the historical records reviewed during this Phase I ESA, the Property was vacant from at least 1891 until it was first developed in 1958 for Spokane Roofing. City directories first list Spokane Roofing in 1959 and the Property is shown to have been developed in the 1962 aerial photograph. No other uses of the Property were identified. The Phase I ESA revealed the following evidence of recognized environmental conditions (RECs) in connection with the Property: A partially exposed, underground storage tank (UST) is located at the northwest corner of the Property, as visible from E. Sprague Ave. According to the Property owner, the UST has not been in use since at least their acquisition of the Property in 2002 and they had no further information regarding the UST. Stantec did not observe the presence of a vent or fill pipe during the site visit and no petroleum odors were noted in the soils surrounding the UST. The presence of a UST at the Property with no documentation of its historical uses, contents and integrity, as well as its potential to have resulted in releases of petroleum products to the environment is a REC for the Property. Historical records obtained from the City of Spokane Fire Department indicate that a permit was issued to Spokane Roofing on March 21, 1972 for the installation of a 2,000-gallon gasoline UST and a gasoline dispenser. The document has a handwritten note stating, tank & dispenser removed 7-19-88. There was no sketch in the documents provided to Stantec showing the location of the reported UST and associated dispenser. The absence of records documenting the assessment and removal of the UST, dispenser and

SPOKANE ROOFING (Continued) **1026464482**

product piping as well as their potential to have resulted in releases of gasoline and/or other petroleum products to the environment is a REC for the Property. The east adjacent property located at 210 E. Sprague Ave. is currently occupied by Curt s City Center Oil and Lube and a Penske Truck Rental facility that has been in operation since at least 2009. Historical records indicate that a retail gasoline station operated at this property between 1954 and 1969 and that the property has also been utilized for automotive repair, aluminum recycling, and as a junk dealer. The property was not listed in the environmental database report obtained by Stantec. The presence of a former gas station in close proximity to the Property (60 feet to the east) in combination with the lack of records documenting decommissioning and assessment of the associated former fueling system(s) is a REC for the Property. The north adjacent property located at 201 E. Sprague Ave. is presently occupied by Spokane Movers. Historical records indicate that in 1943 and 1947 a retail gasoline station operated at this Property. The presence of a former gas station in close proximity to the Property (100 feet to the north) in combination with the lack of records documenting decommissioning and assessment of the associated former fueling system(s) is a REC for the Property. The following business environmental risk (BER) was identified in connection with the Property: The main buildings on the Property appear to have been constructed in 1958. Based on their age, the buildings have an increased potential to contain asbestos, lead-based paint, polychlorinated biphenyls (PCBs), and other regulated bu

Highlights: The Property is occupied by the headquarters of Spokane Roofing Company (Spokane Roofing). The Property consists of approximately 0.37 acres of land developed with a two-story ~2,000 square foot (sq. ft.) office, attached 3,100 sq. ft. garage and 960 sq. ft. workshop. The southeast corner of the site also contained a 360 sq. ft. open, three-sided covered garage. The southern portion of the Property is fenced and contains a gravel lot totaling ~9,540 sq. ft. Access to the gravel lot is via gates located on from E. 1st Ave. and South (S.) Cowley Street (St.). The Property is zoned as General Commercial (GC). Based on the historical records reviewed during this Phase I ESA, the Property was vacant from at least 1891 until it was first developed in 1958 for Spokane Roofing. City directories first list Spokane Roofing in 1959 and the Property is shown to have been developed in the 1962 aerial photograph. No other uses of the Property were identified. The Phase I ESA revealed the following evidence of recognized environmental conditions (RECs) in connection with the Property: A partially exposed, underground storage tank (UST) is located at the northwest corner of the Property, as visible from E. Sprague Ave. According to the Property owner, the UST has not been in use since at least their acquisition of the Property in 2002 and they had no further information regarding the UST. Stantec did not observe the presence of a vent or fill pipe during the site visit and no petroleum odors were noted in the soils surrounding the UST. The presence of a UST at the Property with no documentation of its historical uses, contents and integrity, as well as its potential to have resulted in releases of petroleum products to the environment is a REC for the Property. Historical records obtained from the City of Spokane Fire Department indicate that a permit was issued to Spokane Roofing on March 21, 1972 for the installation of a 2,000-gallon gasoline UST and a gasoline dispenser. The document has a handwritten note stating, tank & dispenser removed 7-19-88. There was no sketch in the documents provided to Stantec showing the location of the reported UST and associated dispenser. The absence of records documenting the assessment and removal of the UST, dispenser and product piping as well as their potential to have resulted in releases of gasoline and/or other petroleum products to the environment is a REC for the Property. The east adjacent property located at 210 E. Sprague Ave. is currently occupied by Curt s City Center Oil and Lube and a Penske Truck Rental facility that has been in operation since at least 2009. Historical records indicate that a retail gasoline station operated at this property between 1954 and 1969 and that the property has also been utilized for automotive repair, aluminum recycling, and as a junk dealer. The property was not listed in the environmental database report obtained by Stantec. The presence of a former gas station in close proximity to the Property (60 feet to the east) in combination with the lack of records documenting decommissioning and assessment of the associated former fueling system(s) is a REC for the Property. The north adjacent property located at 201 E. Sprague Ave. is presently occupied by Spokane Movers. Historical records indicate that in 1943 and 1947 a retail gasoline station operated at this Property. The presence of a former gas station in close proximity to the Property

SPOKANE ROOFING (Continued) **1026464482**

(100 feet to the north) in combination with the lack of records documenting decommissioning and assessment of the associated former fueling system(s) is a REC for the Property. The following business environmental risk (BER) was identified in connection with the Property: The main buildings on the Property appear to have been constructed in 1958. Based on their age, the buildings have an increased potential to contain asbestos, lead-based paint, polychlorinated biphenyls (PCBs), and other regulated bu

Name:	SPOKANE ROOFING
Address:	130 EAST SPRAGUE AVENUE
Recipient name:	City of Spokane
Grant type:	Assessment
Region:	10
Property Number:	35202.0606
Parcel size:	0.37
Latitude:	47.65725165
Longitude:	-117.4086281
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property is occupied by the headquarters of Spokane Roofing Company (Spokane Roofing). The Property consists of approximately 0.37 acres of land developed with a two-story ~2,000 square foot (sq. ft.) office, attached 3,100 sq. ft. garage and 960 sq. ft. workshop. The southeast corner of the site also contained a 360 sq. ft. open, three-sided covered garage. The southern portion of the Property is fenced and contains a gravel lot totaling ~9,540 sq. ft. Access to the gravel lot is via gates located on from E. 1st Ave. and South (S.) Cowley Street (St.). The Property is zoned as General Commercial (GC). Based on the historical records reviewed during this Phase I ESA, the Property was vacant from at least 1891 until it was first developed in 1958 for Spokane Roofing. City directories first list Spokane Roofing in 1959 and the Property is shown to have been developed in the 1962 aerial photograph. No other uses of the Property were identified. The Phase I ESA revealed the following evidence of recognized environmental conditions (RECs) in connection with the Property: A partially exposed, underground storage tank (UST) is located at the northwest corner of the Property, as visible from E. Sprague Ave. According to the Property owner, the UST has not been in use since at least their acquisition of the Property in 2002 and they had no further information regarding the UST. Stantec did not observe the presence of a vent or fill pipe during the site visit and no petroleum odors were noted in the soils surrounding the UST. The presence of a UST at the Property with no documentation of its historical uses, contents and integrity, as well as its potential to

SPOKANE ROOFING (Continued) **1026464482**

have resulted in releases of petroleum products to the environment is a REC for the Property. Historical records obtained from the City of Spokane Fire Department indicate that a permit was issued to Spokane Roofing on March 21, 1972 for the installation of a 2,000-gallon gasoline UST and a gasoline dispenser. The document has a handwritten note stating, tank & dispenser removed 7-19-88. There was no sketch in the documents provided to Stantec showing the location of the reported UST and associated dispenser. The absence of records documenting the assessment and removal of the UST, dispenser and product piping as well as their potential to have resulted in releases of gasoline and/or other petroleum products to the environment is a REC for the Property. The east adjacent property located at 210 E. Sprague Ave. is currently occupied by Curt s City Center Oil and Lube and a Penske Truck Rental facility that has been in operation since at least 2009. Historical records indicate that a retail gasoline station operated at this property between 1954 and 1969 and that the property has also been utilized for automotive repair, aluminum recycling, and as a junk dealer. The property was not listed in the environmental database report obtained by Stantec. The presence of a former gas station in close proximity to the Property (60 feet to the east) in combination with the lack of records documenting decommissioning and assessment of the associated former fueling system(s) is a REC for the Property. The north adjacent property located at 201 E. Sprague Ave. is presently occupied by Spokane Movers. Historical records indicate that in 1943 and 1947 a retail gasoline station operated at this Property. The presence of a former gas station in close proximity to the Property (100 feet to the north) in combination with the lack of records documenting decommissioning and assessment of the associated former fueling system(s) is a REC for the Property. The following business environmental risk (BER) was identified in connection with the Property: The main buildings on the Property appear to have been constructed in 1958. Based on their age, the buildings have an increased potential to contain asbestos, lead-based paint, polychlorinated biphenyls (PCBs), and other regulated bu

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110015447104

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the

TOBYS BODY & FENDER (Continued) **1011847069**

departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Waste Code: D019
Waste Description: Carbon Tetrachloride

Waste Code: D021
Waste Description: Chlorobenzene

Waste Code: D022
Waste Description: Chloroform

WA WSU INSITUTE OF SHOCK PHYSICS (Continued) **1010788350**

Waste Code: D026
Waste Description: Cresol

Waste Code: D027
Waste Description: 1,4-Dichlorobenzene

Waste Code: D034
Waste Description: Hexachloroethane

Waste Code: D036
Waste Description: Nitrobenzene

Waste Code: D038
Waste Description: Pyridine

Waste Code: D039
Waste Description: Tetrachloroethylene

Waste Code: D040
Waste Description: Trichlorethylene

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: U003
Waste Description: Acetonitrile (I,T)

Waste Code: U004

WA WSU INSITUTE OF SHOCK PHYSICS (Continued) **1010788350**

US BROWNFIELDS:

Name: HEALING ROOMS MINISTRIES
Address: 112 EAST 1ST AVENUE
Recipient name: City of Spokane
Grant type: Assessment
Region: 10
Property Number: 35202.0934
Parcel size: 1.03
Latitude: 47.65660252
Longitude: -117.409293
HCM Label: Not reported
Map Scale: Not reported
Point of Reference: Not reported
Highlights: Based on the historical records, the Property appears to have been developed as a residential neighborhood by 1890. Many of the residential structures appear to have been demolished between 1962 and 1972. Aerial photographs indicate that by 1982, all of the residential dwellings on the Property had been demolished and a commercial building had been constructed at 112 E. 1st Ave. The building was operated as a restaurant under various ownership from approximately 1975 until 2001 when it was purchased by the current owner and converted to office space and a church building. The building is currently vacant. Although no RECs were identified, the following business environmental risks (BERs) and/or other potential environmental liabilities relevant to future redevelopment or reuse of the Property were identified by Stantec: -The potential for near surface soil throughout the Property to be impacted from polycyclic aromatic hydrocarbons (PAHs), lead, arsenic and other pollutants commonly present in older urban areas, from the long term (>130-year) use of the Property for residential and commercial land uses. A related concern is potential presence of asbestos, lead-based paint and other regulated building materials (RBMs) in near surface soil associated with the demolition former residences and garages that occurred prior to construction of the existing buildings (with demolition taking place prior to enactment of regulations requiring abatement of these materials in conjunction with demolition). The level of concern is reduced by the fact that 90% or more of the ground surface at the Property is covered by pavement and the building. -The potential presence of asbestos, lead-based paint and other RBMs within the building, based on the date of construction circa 1975. -The observed evidence of leakage of hydraulic fluid associated with the elevator in the building to the floor, in combination with records suggesting that this has been a long-term persistent problem, as well as the potential for polychlorinated biphenyls (PCBs) to have been historically present within the hydraulic fluid based on the buildings date of construction (circa 1975).

Name:	HEALING ROOMS MINISTRIES
Address:	112 EAST 1ST AVENUE
Recipient name:	City of Spokane
Grant type:	Assessment
Region:	10
Property Number:	35202.0934
Parcel size:	1.03
Latitude:	47.65660252
Longitude:	-117.409293
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	Based on the historical records, the Property appears to have been developed as a residential neighborhood by 1890. Many of the residential structures appear to have been demolished between 1962 and 1972. Aerial photographs indicate that by 1982, all of the residential dwellings on the Property had been demolished and a commercial building had been constructed at 112 E. 1st Ave. The building was operated as a restaurant under various ownership from approximately 1975 until 2001 when it was purchased by the current owner and converted to office space and a church building. The building is currently vacant. Although no RECs were identified, the following business environmental risks (BERs) and/or other potential environmental liabilities relevant to future redevelopment or reuse of the Property were identified by Stantec: -The potential for near surface soil throughout the Property to be impacted from polycyclic aromatic hydrocarbons (PAHs), lead, arsenic and other pollutants commonly present in older urban areas, from the long term (>130-year) use of the Property for residential and commercial land uses. A related concern is potential presence of asbestos, lead-based paint and other regulated building materials (RBMs) in near surface soil associated with the demolition former residences and garages that occurred prior to construction of the existing buildings (with demolition taking place prior to enactment of regulations requiring abatement of these materials in conjunction with demolition). The level of concern is reduced by the fact that 90% or more of the ground surface at the Property is covered by pavement and the building. -The potential presence of asbestos, lead-based paint and other RBMs within the building, based on the date of construction circa 1975. -The observed evidence of leakage of hydraulic fluid associated with the elevator in the building to the floor, in combination with records suggesting that this has been a long-term persistent problem, as well as the potential for polychlorinated biphenyls (PCBs) to have been historically present within the hydraulic fluid based on the buildings date of construction (circa 1975).

FINDS:
Registry ID: 110070756696

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
Registry ID: 110005327066

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110070747944

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110070753941

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters,

NIOSH SPOKANE RESEARCH LAB (Continued) **1000332746**

storers, and disposers of hazardous waste.
Registry ID: 110070754281

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database

US BROWNFIELDS:
Name: 217 EAST SPRAGUE AVENUE
Address: 217 EAST SPRAGUE AVENUE
Recipient name: City of Spokane
Grant type: Assessment
Region: 10
Property Number: 35173.1321
Parcel size: 0.21
Latitude: 47.65736632
Longitude: -117.4074975
HCM Label: Not reported
Map Scale: Not reported
Point of Reference: Not reported
Highlights: The 217 E. Sprague Ave is undeveloped and appears to have been in use as a parking lot serving the 225 E. Sprague Parcel. In 1910 or earlier, the 217 Parcel was developed with a 1-story with basement, frame building used by Ornamental Iron & Wire Works and the rest of the parcel was undeveloped. The building was used by Inland Machinery & Supply Co. from at least 1934 to 1959 (with a portion of the building designated as a machine shop on maps dated 1950 and 1952) and then the building was removed in the early 1960s.

Name:	217 EAST SPRAGUE AVENUE
Address:	217 EAST SPRAGUE AVENUE
Recipient name:	City of Spokane
Grant type:	Assessment
Region:	10
Property Number:	35173.1321
Parcel size:	0.21
Latitude:	47.65736632
Longitude:	-117.4074975
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The 217 E. Sprague Ave is undeveloped and appears to have been in use as a parking lot serving the 225 E. Sprague Parcel. In 1910 or earlier, the 217 Parcel was developed with a 1-story with basement,

217 EAST SPRAGUE AVENUE (Continued) **1026463882**

frame building used by Ornamental Iron & Wire Works and the rest of the parcel was undeveloped. The building was used by Inland Machinery & Supply Co. from at least 1934 to 1959 (with a portion of the building designated as a machine shop on maps dated 1950 and 1952) and then the building was removed in the early 1960s.

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D003
Waste Description: Reactive Waste

Waste Code: D004
Waste Description: Arsenic

Waste Code: D005
Waste Description: Barium

Waste Code: D006
Waste Description: Cadmium

Waste Code: D007
Waste Description: Chromium

Waste Code: D008
Waste Description: Lead

Waste Code: D009
Waste Description: Mercury

Waste Code: D010
Waste Description: Selenium

Waste Code: D011
Waste Description: Silver

Waste Code: D015
Waste Description: Toxaphene (C10 H10 Cl8, Technical Chlorinated Camphene, 67-69 Percent Chlorine)

Waste Code: D016

HOME DEPOT 4719 (Continued) **1005445020**

Waste Description:	2,4-D (2,4-Dichlorophenoxyacetic Acid)
Waste Code:	D018
Waste Description:	Benzene
Waste Code:	D020
Waste Description:	Chlordane
Waste Code:	D023
Waste Description:	O-Cresol
Waste Code:	D024
Waste Description:	M-Cresol
Waste Code:	D027
Waste Description:	1,4-Dichlorobenzene
Waste Code:	D028
Waste Description:	1,2-Dichloroethane
Waste Code:	D031
Waste Description:	Heptachlor (And Its Epoxide)
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	D039
Waste Description:	Tetrachloroethylene
Waste Code:	D040
Waste Description:	Trichlorethylene
Waste Code:	D043
Waste Description:	Vinyl Chloride
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	U002
Waste Description:	2-Propanone (I) (Or) Acetone (I)
Waste Code:	U072
Waste Description:	Benzene, 1,4-Dichloro- (Or) P-Dichlorobenzene
Waste Code:	U080
Waste Description:	Methane, Dichloro- (Or) Methylene Chloride
Waste Code:	U112

HOME DEPOT 4719 (Continued) **1005445020**

Waste Description: Acetic Acid, Ethyl Ester (I) (Or) Ethyl Acetate (I)

Waste Code: U154
Waste Description: Methanol (I) (Or) Methyl Alcohol (I)

Waste Code: U159
Waste Description: 2-Butanone (I,T) (Or) Methyl Ethyl Ketone (Mek) (I,T)

Waste Code: U160
Waste Description: 2-Butanone, Peroxide (R,T) (Or) Methyl Ethyl Ketone Peroxide (R,T)

Waste Code: U161
Waste Description: 4-Methyl-2-Pentanone (I) (Or) Methyl Isobutyl Ketone (I) (Or) Pentanol, 4-Methyl-

Waste Code: U165
Waste Description: Naphthalene

Waste Code: U210
Waste Description: Ethene, Tetrachloro- (Or) Tetrachloroethylene

Waste Code: U220
Waste Description: Benzene, Methyl- (Or) Toluene

Waste Code: U226
Waste Description: Ethane, 1,1,1-Trichloro- (Or) Methyl Chloroform

Waste Code: U228
Waste Description: Ethene, Trichloro- (Or) Trichloroethylene

Waste Code: U239
Waste Description: Benzene, Dimethyl- (I,T) (Or) Xylene (I)

Waste Code: U240
Waste Description: 2,4-D, Salts & Esters (Or) Acetic Acid, (2,4-Dichlorophenoxy)-, Salts & Esters (Or) Dichlorophenoxyacetic Acid 2,4-D

Waste Code: U249
Waste Description: Zinc Phosphide Zn3p2, When Present At Concentrations Of 10% Or Less

Waste Code: U279
Waste Description: U279

Waste Code: U411
Waste Description: U411

Environmental Interest/Information System:

The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA’s comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many

HOME DEPOT 4719 (Continued) **1005445020**

types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Registry ID: 110070747578

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:

All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup,

FAIRCO SELF SERVE 2ND AVE (Continued) **1000354562**

and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
Registry ID: 110022439903

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

US BROWNFIELDS:
Name: HEALING ROOMS MINISTRIES
Address: 115 EAST PACIFIC AVENUE
Recipient name: City of Spokane
Grant type: Assessment
Region: 10
Property Number: 1.03
Parcel size: 35202.09
Latitude: 47.65561512
Longitude: -117.4089767
HCM Label: Not reported
Map Scale: Not reported
Point of Reference: Not reported
Highlights: Based on historical records, the Property appears to have been developed as a residential neighborhood by 1890. Many of the residential structures appear to have been demolished between 1962 and 1972. The large commercial building located at 115 E. Pacific Ave. appears to have been constructed by 1972 and operated as a flower distribution warehouse under various ownership until 2006. Aerial photographs indicate that by 1982, all of the residential

HEALING ROOMS MINISTRIES (Continued) **1026464229**

dwellings on the Property had been demolished. The property was purchased by the current owner in 2006 and the floral warehouse building was renovated and then church building operations were moved into the building on the south parcel. The building is currently used as a church, caf , office, counseling, and light manufacturing (i.e., packaging, distribution, and general assembly of Garden s Best health food products). Although no RECs were identified, the following business environmental risks (BERs) and/or other potential environmental liabilities relevant to future redevelopment or reuse of the Property were identified by Stantec: The potential for near surface soil throughout the Property to be impacted from polycyclic aromatic hydrocarbons (PAHs), lead, arsenic and other pollutants commonly present in older urban areas, from the long term (>130-year) use of the Property for residential and commercial land uses. A related concern is potential presence of asbestos, lead-based paint and other regulated building materials (RBMs) in near surface soil associated with the demolition of at least than 50 former residences and garages that occurred prior to construction of the existing buildings (with demolition taking place prior to enactment of regulations requiring abatement of these materials in conjunction with demolition). The level of concern is reduced by the fact that 90% or more of the ground surface at the Property is covered by pavement and the building.

HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	Based on historical records, the Property appears to have been developed as a residential neighborhood by 1890. Many of the residential structures appear to have been demolished between 1962 and 1972. The large commercial building located at 115 E. Pacific Ave. appears to have been constructed by 1972 and operated as a flower distribution warehouse under various ownership until 2006. Aerial photographs indicate that by 1982, all of the residential dwellings on the Property had been demolished. The property was purchased by the current owner in 2006 and the floral warehouse building was renovated and then church building operations were moved into the building on the south parcel. The building is currently used as a church, caf , office, counseling, and light manufacturing (i.e., packaging, distribution, and general assembly of Garden s Best health food products). Although no RECs were identified, the following business environmental risks (BERs) and/or other potential environmental liabilities relevant to future redevelopment or reuse of the Property were identified by Stantec: The potential for near surface soil throughout the Property to be impacted from polycyclic aromatic hydrocarbons (PAHs), lead, arsenic and other pollutants commonly present in older urban areas, from the long term (>130-year) use of the Property for residential and commercial land uses. A related concern is potential presence of asbestos, lead-based paint and other regulated building materials (RBMs) in near surface soil associated with the demolition of at least than 50 former residences and garages that occurred prior to construction of the existing buildings (with demolition taking place prior to enactment of regulations requiring abatement of these materials in conjunction with demolition). The level of concern is reduced by the fact that 90% or more of the ground surface at the Property is covered by pavement and the building.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Point of Reference:	Not reported
Highlights:	The 225 Parcel is developed with a 2-story 9,216-square-foot commercial building (with basement) constructed in 1926. The first

225 EAST SPRAGUE AVENUE (Continued) **1026463887**

floor consists of two storefronts (at 223 and 225 E. Sprague Avenue) and a separate entrance to the second floor which contains an apartment. The basement consists of a small office and storage space with an overhead door and a man door facing the adjacent north alley. All areas except the apartment were vacant at the time of the site visit. According to the owner, the apartment and first floor retail areas were remodeled in 2018. The storefronts and apartment were not accessible during the site visit. In 1902, the 225 Parcel was developed with a 2-story frame building with daylight basement, used for apartments. In 1926, the frame building was replaced with a 2-story 9,216-square-foot brick building with basement, used for a residence and a woodworking shop. The building was partitioned with three addresses (223, 225, and 227 East Sprague Avenue) with one space used for an apartment and the other two spaces used by various tenants over the years, the most common being woodworkers during the 1930s to mid-1940s and then electrical contractors from the mid-1940s to the 1970s (Industrial Electrical Service) and then again in the 2000s (Leeco Electric) per available city directory records. Other users of potential environmental significance included a building insulation contractor (Builders Insulating Co contractors) from 1954 to 1974 at 227 E Sprague Ave. and Super Oil Co fuel in 1954 and 1959 at 225 E. Sprague Ave.

Highlights:	The 225 Parcel is developed with a 2-story 9,216-square-foot commercial building (with basement) constructed in 1926. The first floor consists of two storefronts (at 223 and 225 E. Sprague Avenue) and a separate entrance to the second floor which contains an apartment. The basement consists of a small office and storage space

225 EAST SPRAGUE AVENUE (Continued) **1026463887**

with an overhead door and a man door facing the adjacent north alley. All areas except the apartment were vacant at the time of the site visit. According to the owner, the apartment and first floor retail areas were remodeled in 2018. The storefronts and apartment were not accessible during the site visit. In 1902, the 225 Parcel was developed with a 2-story frame building with daylight basement, used for apartments. In 1926, the frame building was replaced with a 2-story 9,216-square-foot brick building with basement, used for a residence and a woodworking shop. The building was partitioned with three addresses (223, 225, and 227 East Sprague Avenue) with one space used for an apartment and the other two spaces used by various tenants over the years, the most common being woodworkers during the 1930s to mid-1940s and then electrical contractors from the mid-1940s to the 1970s (Industrial Electrical Service) and then again in the 2000s (Leeco Electric) per available city directory records. Other users of potential environmental significance included a building insulation contractor (Builders Insulating Co contractors) from 1954 to 1974 at 227 E Sprague Ave. and Super Oil Co fuel in 1954 and 1959 at 225 E. Sprague Ave.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.
