Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Tank Spill Prevention:	Single Wall Spill Bucket
Tank Overfill Prevention:	Ball Float Valve (vent line)
Tank Material:	Dielectric Coated Steel
Tank Construction:	Double Wall Tank
Tank Corrosion Protection:	Sacrificial Anode
Tank Manifold:	Not reported
Tank Release Detection:	Automatic Tank Gauging
Tank SFC Type:	Single Wall Sump
Pipe Material:	Fiberglass
Pipe Construction:	Double Wall Pipe
Pipe Primary Release Detection:	Automatic Line Leak Detector (ALLD)
Pipe Second Release Detection:	Annual Line Tightness Test (LTT)
Pipe Corrosion Protection:	Corrosion Resistant
Pipe Pumping System:	Pressurized System
Responsible Unit:	Eastern
Dispencer/Pump SFC Type:	Rubber Boot
Region:	Eastern
Is Active:	True
Actual Capacity:	6000
Pipe Install Date:	Not reported
Compart Number:	1
Stored Substance:	Alcohol Blend Gasoline
Used Substance:	Motor Fuel for Vehicles
Compart Capacity:	6000
Tank Manufacturer:	Not reported

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D008
Waste Description: Lead

Waste Code: D018
Waste Description: Benzene

Waste Code: D035
Waste Description: Methyl Ethyl Ketone

Waste Code: D039
Waste Description: Tetrachloroethylene

Waste Code: F001
Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichlorethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:
Registry ID: 110005318600

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property consists of 0.12 acres of land, identified by Spokane County as parcel #35173.1209, and developed with a 1-story, 2,108 square-foot, masonry garage constructed in 1946 with five rollup

12 N GRANT ST (Continued) **1027025650**

doors and one rolling side door. The driveway is asphalt paved and the remainder of the Property is gravel covered and fenced along with the exterior portion of the east adjacent site (411 East Sprague Avenue). The Property is vacant. Based on the available permit records and historical information sources, the documented first use of the Property was two residences fronting North Grant Street in 1891. A third residence occupied the Property from at least 1902-1937. By 1946, the three residences were removed and replaced with the present-day garage. From at least 1950-1980 according to available Sanborn maps, the garage was labeled 'trucks and iron rack.' According to the Property's owner, the garage was used for vehicle parking by Trudeau's Marine from approximately 2010-2012 and then a limousine rental company from approximately 2012-2015. Since that time, the garage has been used periodically by the owners of the Property for vehicle parking.

Highlights:	The Property consists of 0.12 acres of land, identified by Spokane County as parcel #35173.1209, and developed with a 1-story, 2,108 square-foot, masonry garage constructed in 1946 with five rollup doors and one rolling side door. The driveway is asphalt paved and the remainder of the Property is gravel covered and fenced along with the exterior portion of the east adjacent site (411 East Sprague Avenue). The Property is vacant. Based on the available permit records and historical information sources, the documented first use of the Property was two residences fronting North Grant Street in 1891. A third residence occupied the Property from at least 1902-1937. By 1946, the three residences were removed and replaced with the present-day garage. From at least 1950-1980 according to available Sanborn maps, the garage was labeled 'trucks and iron rack.' According to the Property's owner, the garage was used for vehicle parking by Trudeau's Marine from approximately 2010-2012 and then a limousine rental company from approximately 2012-2015. Since that time, the garage has been used periodically by the owners of the Property for vehicle parking.

US BROWNFIELDS:

Name:	WASHINGTON STATE UNIVERSITY - OPEN SPACE CAMPUS
Address:	412 E SPOKANE FALLS BLVD
Recipient name:	City of Spokane
Grant type:	Assessment
Region:	10
Property Number:	35173.3201
Parcel size:	2.13
Latitude:	47.661229
Longitude:	-117.406115
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property is owned by WSU Spokane and consists of approximately 1.89 acres of land in the University District of Spokane. The Property is located within a larger parcel known as the Riverpoint Campus (Spokane County Parcel ID# 35173.3201) and is currently developed with walking paths and landscaped areas as part of WSU Spokane s campus quad; there are no structures on the Property. The Property is bounded by several campus sidewalks and Health Science campus buildings to the north, east, and west, and by East Spokane Falls Boulevard to the south. The Property is zoned Downtown University (DTU) and surrounding properties are a mix of DTU and commercially zoned parcels. The Property was developed and operated as a railyard prior to 1902 until at least 1982. Historical uses of the Property include a railroad freight and terminal facility with accompanying fueling station and round house. A major feature in the Property s past operations is the Riverpoint Trench (also known as the Milwaukee Trench or the Great Northern Railroad Trench), which is described as extending from Division Street eastward approximately 1,500 feet on the northern side of East Spokane Falls Boulevard (formerly East Trent Avenue). The Milwaukee Railroad operated an active railroad line through the Riverpoint Trench from the early 1900s until the late 1980s, which crossed through the southern portion of the Property. Environmental investigations of soil and groundwater were completed on the Property between 1984 and 1987 indicating the presence of impacted soil and groundwater. Cleanup

WASHINGTON STATE UNIVERSITY - OPEN SPACE CAMPUS (Continued) **1026464544**

activities were reported to have been completed in 1989; although, records documenting cleanup activities on the Property were not available for review during this Phase I ESA. The railroad trench was reported to have been buried in place and there is residual contamination within the trench, including on the Property. Vicinity properties were used for a variety of industrial activities including a large railyard, municipal incinerator, municipal asphalt plant, brewery, and metal salvage yard, and other industrial uses.

The Property is zoned Downtown University (DTU) and surrounding properties are a mix of DTU and commercially zoned parcels. The Property was developed and operated as a railyard prior to 1902 until at least 1982. Historical uses of the Property include a railroad freight and terminal facility with accompanying fueling station and round house. A major feature in the Property s past operations is the Riverpoint Trench (also known as the Milwaukee Trench or the Great Northern Railroad Trench), which is described as extending from Division Street eastward approximately 1,500 feet on the northern side of East Spokane Falls Boulevard (formerly East Trent Avenue). The Milwaukee Railroad operated an active railroad line through the Riverpoint Trench from the early 1900s until the late 1980s, which crossed through the southern portion of the Property. Environmental investigations of soil and groundwater were completed on the Property between 1984 and 1987 indicating the presence of impacted soil and groundwater. Cleanup activities were reported to have been completed in 1989; although, records documenting cleanup activities on the Property were not available for review during this Phase I ESA. The railroad trench was reported to have been buried in place and there is residual

WASHINGTON STATE UNIVERSITY - OPEN SPACE CAMPUS (Continued) **1026464544**

	contamination within the trench, including on the Property. Vicinity properties were used for a variety of industrial activities including a large railyard, municipal incinerator, municipal asphalt plant, brewery, and metal salvage yard, and other industrial uses.

Highlights:	The Property is owned by WSU Spokane and consists of approximately 1.89 acres of land in the University District of Spokane. The Property is located within a larger parcel known as the Riverpoint Campus (Spokane County Parcel ID# 35173.3201) and is currently developed with walking paths and landscaped areas as part of WSU Spokane s campus quad; there are no structures on the Property. The Property is bounded by several campus sidewalks and Health Science campus buildings to the north, east, and west, and by East Spokane Falls Boulevard to the south. The Property is zoned Downtown University (DTU) and surrounding properties are a mix of DTU and commercially zoned parcels. The Property was developed and operated as a railyard prior to 1902 until at least 1982. Historical uses of the Property include a railroad freight and terminal facility with accompanying fueling station and round house. Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

US BROWNFIELDS:

Name:	BUTTERWORTH PROPERTY
Address:	402 EAST SPRAGUE AVENUE
Recipient name:	City of Spokane
Grant type:	Assessment
Region:	10
Property Number:	35202.0303
Parcel size:	0.37
Latitude:	47.656971
Longitude:	-117.4048155
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property consists of a 0.37-acre parcel of land (Spokane County Parcel ID# 35202.0303) improved with a 16,000-square-foot (ft2) building-with a partial, approximately 3,500-ft2 basement-constructed in 1929, extended in 1939, and remodeled in 1990. The building is partitioned north-south with approximately 5,000-ft2 of retail and office space in the northern portion and approximately 11,000-ft2 of warehouse space in the southern portion of the building. The Property is owned by Butterworth Properties, LLC and occupied by Contract Design Associates, an office furniture dealership founded by the Bruce and Jill Butterworth of Butterworth Properties, LLC.

US BROWNFIELDS:

Name:	411 E SPRAGUE AVE
Address:	411 E SPRAGUE AVE
Recipient name:	City of Spokane
Grant type:	Assessment
Region:	10
Property Number:	35173.1208
Parcel size:	0.34
Latitude:	47.65742199
Longitude:	-117.404718
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property consists of 0.34 acres of land, identified by Spokane County as parcel #35173.1208, developed with a 1-story, 12,150 square-foot, masonry building constructed in 1945. The remainder of the Property is paved with asphalt and shared with the west adjacent site (12 North. Grant Street). The Property has been vacant for about a year according to the Property's owner. Based on the available permit records and historical information sources, the documented first use of the Property was a small residence fronting East. Sprague Avenue in 1891. By 1945, the small shop and structures and unnamed road/alley were removed, and the present-day building was constructed and first used for neon sign production. The building continued to be used for sign production until 1992, when it was purchased by the current owner and used for retail of janitorial supplies until 2010. According to the Property's owner, the building was then used for approximately 3 years for skating/roller derby. (Krunch Skate Shop appears on the 2017 city directory for the Property).) The Property was then used for marijuana production and processing by Belladonna Inc. from 2015 until early 2020.

HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property consists of 0.34 acres of land, identified by Spokane County as parcel #35173.1208, developed with a 1-story, 12,150 square-foot, masonry building constructed in 1945. The remainder of the Property is paved with asphalt and shared with the west adjacent site (12 North. Grant Street). The Property has been vacant for about a year according to the Property's owner. Based on the available permit records and historical information sources, the documented first use of the Property was a small residence fronting East. Sprague Avenue in 1891. By 1945, the small shop and structures and unnamed road/alley were removed, and the present-day building was constructed and first used for neon sign production. The building continued to be used for sign production until 1992, when it was purchased by the current owner and used for retail of janitorial supplies until 2010. According to the Property's owner, the building was then used for approximately 3 years for skating/roller derby. (Krunch Skate Shop appears on the 2017 city directory for the Property).) The Property was then used for marijuana production and processing by Belladonna Inc. from 2015 until early 2020.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the

UTTER MOTOR CO (Continued) **1000210950**

Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:
Registry ID: 110005372756

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110070745826

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database

Hazardous Waste Summary:
Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D022
Waste Description: Chloroform

Waste Code: D039

ALK ABELLO SOURCE MATERIALS INC SPOKANE (Continued) **1000659037**

Waste Description: Tetrachloroethylene

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: U228
Waste Description: Ethene, Trichloro- (Or) Trichloroethylene

Highlights:	Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls ? a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for

RIVERFRONT PARK CLEANUP - (SIN-HOO-MEN-HUH) AREA B (Continued) **1025442589**

industrial development beginning with the construction in 1871 of the first saw mill along the south bank. In subsequent decades, the area also became a hub for the rail industry ? with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the areas condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961. Former Use: Development in the Riverfront Park area began in the late 1870?s. The Spokane Falls were a source of power for industries in the nascent City. The power of the falls attracted lumber mills and flour mills to the area in the early 1880s. Canada Island, originally called both Cannon and Crystal Island, was chosen as the location for the first water pumping plant in 1884. Historical Sanborn maps indicate two lumber storage yards were present on the island by 1902. By 1910, the lumber storage area and City Water Work pump station were no longer visible. Crystal Steam Laundry and dry cleaning was the sole occupant on the island until the early 1970s when the island was redeveloped in preparation of the 1974 Worlds Fair (Expo 74). Park improvements since 2014 have resulted in an 83% increase in the number of visitors who have a ended a free or low cost event and a 13% increase in public community events (301 total in 2019). Walk and run activity within the park has increased 47% from 2018 to 2019, with 30 park specific walks/runs hosted in 2019, many crossing the suspension bridges. In the past 2 years, the park has hosted an average of 461 events and approximately 3.0 million park visitors annually. This is a net increase of approximately 800,000 visitors from the average 2.2 million annual pre renovation park visitors. Since the start of the park redevelopment, three major private developments and one public facility development totaling $268 million dollars have been proposed and are either in planning, design, or construction. All projects are directly adjacent to Riverfront Park. Projects include: The Sportsplex : A publicly funded 53 million dollar new competition sport facility The Papillion : A privately funded 80 million dollar new mid rise mixed use tower The Falls Tower : A privately funded 70 million dollar new 22 story mixed use tower The M : A 65 million dollar mixed use building with residential retail and restaurant

Property Description:	Development in the Riverfront Park area began in the late 1870 s. The Spokane Falls were a source of power for industries in the nascent City. The power of the falls attracted lumber mills and flour mills to the area in the early 1880s. Canada Island, originally called both Cannon and Crystal Island, was chosen as the location for the first water pumping plant in 1884. Historical Sanborn maps indicate two lumber storage yards were present on the island by 1902. By 1910, the lumber storage area and City Water Work pump station were no longer visible. Crystal Steam Laundry and dry cleaning was the sole occupant on the island until the early 1970s when the island was redeveloped in preparation of the 1974 World s Fair (Expo 74).

Highlights:	Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls ? a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for industrial development beginning with the construction in 1871 of the first saw mill along the south bank. In subsequent decades, the area also became a hub for the rail industry ? with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the areas condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961. Former Use: Development in the Riverfront Park area began in the late 1870?s. The Spokane Falls were a source of power for industries in the nascent City. The power of the falls attracted lumber mills and flour mills to the area in the early 1880s. Canada Island, originally called both Cannon and Crystal Island, was chosen as the location for the first water pumping plant in 1884. Historical Sanborn maps indicate two lumber storage yards were present on the island by 1902. By 1910, the lumber storage area and City Water Work pump station were no longer visible. Crystal Steam Laundry and dry cleaning was the sole occupant on the island until the early 1970s when the island was redeveloped in preparation of the 1974 Worlds Fair (Expo 74). Park improvements since 2014 have resulted in an 83% increase in the number of visitors who have a ended a free or low cost event and a 13% increase in public community events (301 total in 2019). Walk and run activity within the park has increased 47% from 2018 to 2019, with 30 park specific walks/runs hosted in 2019, many crossing the suspension bridges. In the past 2 years, the park has hosted an average of 461 events and approximately 3.0 million park visitors annually. This is a net increase of approximately 800,000 visitors from the average 2.2 million annual pre renovation park visitors. Since the start of the park redevelopment, three major private developments and one public facility development totaling $268 million dollars have been proposed and are either in planning, design, or construction. All projects are directly adjacent to Riverfront Park. Projects include: The Sportsplex : A publicly funded 53 million dollar new competition sport facility The Papillion : A privately funded 80 million dollar new mid rise mixed use tower The Falls Tower : A privately funded 70 million dollar new 22 story mixed use tower The M : A 65 million dollar mixed use building with residential retail and restaurant

Highlights:	In 2014, the City of Spokane, Washington (the City) was awarded $400,000 in funding by the United States Environmental Protection Agency (EPA) for use in assessing vacant, underutilized, or abandoned properties for which redevelopment or reuse is complicated by known or suspected environmental liabilities (i.e., brownfields). The EPA brownfield funding is being used to advance local efforts focused on redevelopment and reuse of priority brownfield sites throughout the City. In 2017, the City was awarded additional EPA brownfield funding (3 cleanup grants totaling $600,000) to support revitalization of the approximately 100-acre Riverfront Park. This entry is for 1 of the 3 areas, Havermale Island Area A. Former Use: Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for industrial development beginning with the construction in 1871 of the first saw mill along the south bank. Highlights: In 2014, the City of Spokane, Washington (the City) was awarded $400,000 in funding by the United States Environmental Protection Agency (EPA) for use in assessing vacant, underutilized, or abandoned properties for which redevelopment or reuse is complicated by known or suspected environmental liabilities (i.e., brownfields). The EPA brownfield funding is being used to advance local efforts focused on redevelopment and reuse of priority brownfield sites throughout the City. In 2017, the City was awarded additional EPA brownfield funding (3 cleanup grants totaling $600,000) to support revitalization of the approximately 100-acre Riverfront Park. This entry is for 1 of the 3 areas, Havermale Island Area A. Former Use: Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for industrial development beginning with the construction in 1871 of the first saw mill along the south bank. In subsequent decades, the area also became a hub for the rail industry with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the areas condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961. Park improvements since 2014 have resulted in an 83% increase in the number of visitors who have attended a free or low cost event and a 13% increase in public community events (301 total in 2019). Walk and run activity within the park has increased 47% from 2018 to 2019, with 30 park specific walks/runs hosted in 2019, many crossing the suspension bridges. In the past 2 years, the park has hosted an average of 461 events and approximately 3.0 million park visitors annually. This is a net increase of approximately 800,000 visitors from the average 2.2 million annual

RIVERFRONT PARK CLEANUP - (SIN-HOO-MEN-HUH) AREA B (Continued) **1025442589**

	prerenovation park visitors. Since the start of the park redevelopment, three major private developments and one public facility development totaling $268 million dollars have been proposed and are either in planning, design, or construction. All projects are directly adjacent to Riverfront Park. Projects include: The Sportsplex : A publicly funded 53 million dollar new competition sport facility The Papillion : A privately funded 80 million dollar new midrise mixed use tower. The Falls Tower : A privately funded 70 million dollar new 22 story mixed use tower 'The M : A 65 million dollar mixed use building with residential retail and restaurant

Highlights:	Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls ? a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for industrial development beginning with the construction in 1871 of the first saw mill along the south bank. In subsequent decades, the area also became a hub for the rail industry ? with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the areas condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961. Former Use: Development in the Riverfront Park area began in the late 1870?s. The Spokane Falls were a source of power for industries in the nascent City. The power of the falls attracted lumber mills and flour mills to the area in the early 1880s. Canada Island, originally called both Cannon and Crystal Island, was chosen as the location for the first water pumping plant in 1884. Historical Sanborn maps indicate two lumber storage yards were present on the island by 1902. By 1910, the lumber storage area and City Water Work pump station were no longer visible. Crystal Steam Laundry and dry cleaning was the sole occupant on the island until the early 1970s when the island was redeveloped in preparation of the 1974 Worlds Fair (Expo 74). Park improvements since 2014 have resulted in an 83% increase in the number of visitors who have a ended a free or low cost event and a 13% increase in public community events (301 total in 2019). Walk and run activity within the park has increased 47% from 2018 to 2019, with 30 park specific walks/runs hosted in 2019, many crossing the suspension bridges. Property Description:	Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for industrial development beginning with the construction in 1871 of the first saw mill along the south bank. In subsequent decades, the area also became a hub for the rail industry with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the area s condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961.

RIVERFRONT PARK CLEANUP - (SIN-HOO-MEN-HUH) AREA B (Continued) **1025442589**

Highlights:	In 2014, the City of Spokane, Washington (the City) was awarded $400,000 in funding by the United States Environmental Protection Agency (EPA) for use in assessing vacant, underutilized, or abandoned properties for which redevelopment or reuse is complicated by known or suspected environmental liabilities (i.e., brownfields). The EPA brownfield funding is being used to advance local efforts focused on redevelopment and reuse of priority brownfield sites throughout the City. In 2017, the City was awarded additional EPA brownfield funding (3 cleanup grants totaling $600,000) to support revitalization of the approximately 100-acre Riverfront Park. This entry is for 1 of the 3 areas, Havermale Island Area A. Former Use: Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for industrial development beginning with the construction in 1871 of the first saw mill along the south bank. In subsequent decades, the area also became a hub for the rail industry with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the areas condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961. Park improvements since 2014 have resulted in an 83% increase in the number of visitors who have attended a free or low cost event and a 13% increase in public community events (301 total in 2019). Walk and run activity within the park has increased 47% from 2018 to 2019, with 30 park specific walks/runs hosted in 2019, many crossing the suspension bridges. In the past 2 years, the park has hosted an average of 461 events and approximately 3.0 million park visitors annually. This is a net increase of approximately 800,000 visitors from the average 2.2 million annual prerenovation park visitors. Since the start of the park redevelopment, three major private developments and one public facility development totaling $268 million dollars have been proposed and are either in planning, design, or construction. All projects are directly adjacent to Riverfront Park. Projects include: The Sportsplex : A publicly funded 53 million dollar new competition sport facility The Papillion : A privately funded 80 million dollar new midrise mixed use tower. The Falls Tower : A privately funded 70 million dollar new 22 story mixed use tower 'The M : A 65 million dollar mixed use building with residential retail and restaurant

Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the areas condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961. Former Use: Historically, in the early 1900's Area C contained a saw mill (Phoenix Saw Mill Lumberyard) and rail road easements for Union Pacific and the Great Northern Railroad. By 1952 the lumber yard was no longer shown on Sanborn Maps for Area C. Parcels associated with Area C were acquired by the City in 1973 and 1974 in preparation for Expo 74'. The funds requested through this grant have helped offset the disposal costs for impacted soil and facility revitalization of RFP. Construction activities in 2020 for the North Bank generally included removal of petroleum contaminated soil, lead contaminated soils, removal of the former maintenance building and construction of a parking lot, new maintenance building and new playground with various features. One of the top three new attractions requested by the public is a destination playground. The theme of Riverfront's new playground is the Ice Age Floods which are responsible for sculpting the unique geology of our region. Because of the dynamic nature of the Ice Age Floods and the rich imagery of its components, its story will be transformed into an exciting play environment that also offers rich,

In subsequent decades, the area also became a hub for the rail industry with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the areas condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961. Former Use: Historically, in the early 1900's Area C contained a saw mill (Phoenix Saw Mill Lumberyard) and rail road easements for Union Pacific and the Great Northern Railroad. By 1952 the lumber yard was no longer shown on Sanborn Maps for Area C. Parcels associated with Area C were acquired by the City in 1973 and 1974 in preparation for Expo 74'. The funds requested through this grant have helped offset the disposal costs for impacted soil and facility revitalization of RFP. Construction activities in 2020 for the North Bank generally included removal of petroleum contaminated soil, lead contaminated soils, removal of the former maintenance building and construction of a parking lot, new maintenance building and new playground with various features. One of the top three new attractions requested by the public is a destination playground. The theme of Riverfront's new playground is the Ice Age Floods which are responsible for sculpting the unique geology of our region. Because of the dynamic nature of the Ice Age Floods and the rich imagery of its components, its story will be transformed into an exciting play environment that also offers rich, multi-dimensional learning opportunities.

Highlights:	Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for industrial development beginning with the construction in 1871 of the first saw mill along the south bank. In subsequent decades, the area also became a hub for the rail industry with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Highlights: Riverfront Park has a rich and varied history. The Park is centered on Spokane Falls a spectacular natural feature that for thousands of years served as a gathering place and prime fishing area for Native Americans. Power generated by the Falls made it a focus for industrial development beginning with the construction in 1871 of the first saw mill along the south bank. In subsequent decades, the area also became a hub for the rail industry with rail yards covering Havermale Island (the present site of the Park) which was also the location of the Great Northern Railroad Depot completed in 1902. Over subsequent decades, the area became increasingly characterized by blight, pollution, and abandonment. Concerns over the areas condition led to it being identified as a focus for urban renewal in a Master Plan adopted for the area in 1961. Former Use: Historically, in the early 1900's Area C contained a saw mill (Phoenix Saw Mill Lumberyard) and rail road easements for Union Pacific and the Great Northern Railroad. By 1952 the lumber yard was no longer shown on Sanborn Maps for Area C. Parcels associated with Area C were acquired by the City in 1973 and 1974 in preparation for Expo 74'. The funds requested through this grant have helped offset the disposal costs for impacted soil and facility revitalization of RFP. Construction activities in 2020 for the North Bank generally included removal of petroleum contaminated soil, lead contaminated soils, removal of the former maintenance building and construction of a parking lot, new maintenance building and new playground with various features. One of the top three new attractions requested by the public is a destination playground. The theme of Riverfront's new playground is the Ice Age Floods which are responsible for sculpting the unique geology of our region. Because of the dynamic nature of the Ice Age Floods and the rich imagery of its components, its story will be transformed into an exciting play environment that also offers rich, multi-dimensional learning opportunities.

Environmental Interest/Information System:

The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:
Registry ID: 110005376592

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on Brownfields properties assessed or cleaned up with grant funding, as well as information on Targeted Brownfields Assessments (TBA) performed by EPA Regions.
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110070746486

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database

US BROWNFIELDS:

Name:	DOWNTOWN AUTO SPECIALISTS
Address:	430 EAST SPRAGUE AVENUE
Recipient name:	City of Spokane
Grant type:	Assessment
Region:	10
Property Number:	35202.0306
Parcel size:	0.74
Latitude:	47.65728428
Longitude:	-117.4040842
HCM Label:	Not reported
Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property consists of approximately 0.74 acres of land identified by Spokane County as parcel no. 35202.0306, which is developed with a 11,298 square-foot building with approximately 2,592 square-foot of second floor space, constructed in 1963, and a 1,688 square-foot canopy constructed in 1964. The outdoor areas of the parcel are asphalt or concrete paved with limited landscaping. The Property is used by Downtown Auto Specialists for automotive servicing and repair and a small portion of the building is used by Ray's Computers for vinyl records and CD sales and computer repair. Napo's Nu 2 U Auto Sales was also a tenant of the building for used auto sales until January 2020. Downtown Auto Specialists has taken over their leased space for specialty Volkswagen repair. In February 2019, Janken Properties LLC purchased the Property from Rick and Vickie Hing Wah Louie. The Louie's had owned the Property since 2011 when they purchased it from James B. and Linda A. Quinlan. The following business environmental risks (BERs) relevant to redevelopment or reuse of the Property were identified during the Phase I ESA: -Based on the age of the Property's building (circa 1963), lead-based paint and asbestos-containing material (ACM) may be present in the building. The following potential ACMs were observed during the site visit: vinyl floor tile and mastic, ceiling tiles/panels, acoustical ceiling texture ("popcorn"), and textured wallboard. A formal hazardous materials survey was not completed as part of the Phase I ESA scope of work. -Water staining and apparent mold were observed on the interior ceilings and walls of the second-floor rooms, the stairwell, and one of the showroom offices. -Many containers of chemicals were observed during the site visit, stored haphazardly throughout the Property's building, including eight drums of used oil stored outdoors without secondary containment. No leaks or staining were observed from the drums. We have performed this Phase I ESA of the Property in conformance with the scope and limitations of ASTM International (ASTM) Practice E1527-13. Any exceptions to, or deletions from, this practice are described in the Data Gaps section of this report. This assessment has revealed the following evidence of recognized environmental conditions (RECs) in connection with the Property: -REC #1: The presence of a dye-works and dry cleaners with three gasoline USTs as well as potentially three separate gasoline aboveground storage tanks (ASTs) on the Property from the early 1900s to the late 1950s is a REC for the Property. -REC #2: The presence of a service station on the Property from 1921 to the early 1960s with

DOWNTOWN AUTO SPECIALISTS (Continued) **1026464102**

five gasoline USTs installed in 1940 and four USTs in 1958 (three gasoline and one waste oil), and the unknown status of the USTs, is a REC for the Property. -REC #3: The presence of a waste oil UST associated with the present-day building from 1964 to 1990/1996 (conflicting records) with no documentation of its condition upon its removal is a REC for the Property. -REC #4: The presence of hydraulic lifts with an in-ground oil reservoir/tank used for automotive servicing since the early 1960s is a REC for the Property. -REC #5: The presence of a UST fill port and vent pipe at the southeast corner of the adjacent west building with no documentation of its existence is a REC for the Property. -REC #6: The presence of a service station on the adjacent west property during the 1950s or earlier to the 1960s is a REC for the Property. Based on the identified RECs, it is recommended that a Phase II ESA be conducted prior to redevelopment to further evaluate the presence/absence and magnitude of potential impacts at the Property.

This assessment has revealed the following evidence of recognized environmental conditions (RECs) in connection with the Property: -REC #1: The presence of a dye-works and dry cleaners with three gasoline USTs as well as potentially three separate gasoline aboveground storage tanks (ASTs) on the Property from the early 1900s to the late 1950s is a REC for the Property. -REC #2: The presence of a service station on the Property from 1921 to the early 1960s with five gasoline USTs installed in 1940 and four USTs in 1958 (three gasoline and one waste oil), and the unknown status of the USTs, is a REC for the Property. -REC #3: The presence of a waste oil UST associated with the present-day building from 1964 to 1990/1996 (conflicting records) with no documentation of its condition upon its removal is a REC for the Property. -REC #4: The presence of hydraulic lifts with an in-ground oil reservoir/tank used for automotive servicing since the early 1960s is a REC for the Property. -REC #5: The presence of a UST fill port and vent pipe at the southeast corner of the adjacent west building with no documentation of its existence is a REC for the Property. -REC #6: The presence of a service station on the adjacent west property during the 1950s or earlier to the 1960s is a REC for the Property. Based on the identified RECs, it is recommended that a Phase II ESA be conducted prior to redevelopment to further evaluate the presence/absence and magnitude of potential impacts at the Property.

DOWNTOWN AUTO SPECIALISTS (Continued) **1026464102**

Highlights: The Property consists of approximately 0.74 acres of land identified by Spokane County as parcel no. 35202.0306, which is developed with a 11,298 square-foot building with approximately 2,592 square-foot of second floor space, constructed in 1963, and a 1,688 square-foot canopy constructed in 1964. The outdoor areas of the parcel are asphalt or concrete paved with limited landscaping. The Property is used by Downtown Auto Specialists for automotive servicing and repair and a small portion of the building is used by Ray's Computers for vinyl records and CD sales and computer repair. Napo's Nu 2 U Auto Sales was also a tenant of the building for used auto sales until January 2020. Downtown Auto Specialists has taken over their leased space for specialty Volkswagen repair. In February 2019, Janken Properties LLC purchased the Property from Rick and Vickie Hing Wah Louie. The Louie's had owned the Property since 2011 when they purchased it from James B. and Linda A. Quinlan. The following business environmental risks (BERs) relevant to redevelopment or reuse of the Property were identified during the Phase I ESA: -Based on the age of the Property's building (circa 1963), lead-based paint and asbestos-containing material (ACM) may be present in the building. The following potential ACMs were observed during the site visit: vinyl floor tile and mastic, ceiling tiles/panels, acoustical ceiling texture ("popcorn"), and textured wallboard. A formal hazardous materials survey was not completed as part of the Phase I ESA scope of work. -Water staining and apparent mold were observed on the interior ceilings and walls of the second-floor rooms, the stairwell, and one of the showroom offices. -Many containers of chemicals were observed during the site visit, stored haphazardly throughout the Property's building, including eight drums of used oil stored outdoors without secondary containment. No leaks or staining were observed from the drums. We have performed this Phase I ESA of the Property in conformance with the scope and limitations of ASTM International (ASTM) Practice E1527-13. Any exceptions to, or deletions from, this practice are described in the Data Gaps section of this report. This assessment has revealed the following evidence of recognized environmental conditions (RECs) in connection with the Property: -REC #1: The presence of a dye-works and dry cleaners with three gasoline USTs as well as potentially three separate gasoline aboveground storage tanks (ASTs) on the Property from the early 1900s to the late 1950s is a REC for the Property. -REC #2: The presence of a service station on the Property from 1921 to the early 1960s with five gasoline USTs installed in 1940 and four USTs in 1958 (three gasoline and one waste oil), and the unknown status of the USTs, is a REC for the Property. -REC #3: The presence of a waste oil UST associated with the present-day building from 1964 to 1990/1996 (conflicting records) with no documentation of its condition upon its removal is a REC for the Property. -REC #4: The presence of hydraulic lifts with an in-ground oil reservoir/tank used for automotive servicing since the early 1960s is a REC for the Property. -REC #5: The presence of a UST fill port and vent pipe at the southeast corner of the adjacent west building with no documentation of its existence is a REC for the Property. -REC #6: The presence of a service station on the adjacent west property during the 1950s or earlier to the 1960s is a REC for the Property. Based on the identified RECs, it is recommended that a Phase II ESA be conducted prior to redevelopment to further evaluate the presence/absence and magnitude of potential impacts at the Property.

Highlights:	The Property consists of approximately 0.74 acres of land identified by Spokane County as parcel no. 35202.0306, which is developed with a 11,298 square-foot building with approximately 2,592 square-foot of second floor space, constructed in 1963, and a 1,688 square-foot canopy constructed in 1964. The outdoor areas of the parcel are asphalt or concrete paved with limited landscaping. The Property is used by Downtown Auto Specialists for automotive servicing and repair and a small portion of the building is used by Ray's Computers for vinyl records and CD sales and computer repair. Napo's Nu 2 U Auto Sales was also a tenant of the building for used auto sales until January 2020. Downtown Auto Specialists has taken over their leased space for specialty Volkswagen repair. In February 2019, Janken Properties LLC purchased the Property from Rick and Vickie Hing Wah Louie. The Louie's had owned the Property since 2011 when they purchased it from James B. and Linda A. Quinlan. The following business environmental risks (BERs) relevant to redevelopment or reuse of the Property were identified during the Phase I ESA: -Based on the age of the Property's building (circa 1963), lead-based paint and asbestos-containing material (ACM) may be present in the building. The following potential ACMs were observed during the site visit: vinyl floor tile and mastic, ceiling tiles/panels, acoustical ceiling texture ("popcorn"), and textured wallboard. A formal hazardous materials survey was not completed as part of the Phase I ESA scope of work. -Water staining and apparent mold were observed on the interior ceilings and walls of the second-floor rooms, the stairwell, and one of the showroom offices. -Many containers of chemicals were observed during the site visit, stored haphazardly throughout the Property's building, including eight drums of used oil stored outdoors without secondary containment. No leaks or staining were observed from the drums. We have performed this Phase I ESA of the Property in conformance with the scope and limitations of ASTM International (ASTM) Practice E1527-13. Any exceptions to, or deletions from, this practice are described in the Data Gaps section of this report. This assessment has revealed the following evidence

DOWNTOWN AUTO SPECIALISTS (Continued) **1026464102**

of recognized environmental conditions (RECs) in connection with the Property: -REC #1: The presence of a dye-works and dry cleaners with three gasoline USTs as well as potentially three separate gasoline aboveground storage tanks (ASTs) on the Property from the early 1900s to the late 1950s is a REC for the Property. -REC #2: The presence of a service station on the Property from 1921 to the early 1960s with five gasoline USTs installed in 1940 and four USTs in 1958 (three gasoline and one waste oil), and the unknown status of the USTs, is a REC for the Property. -REC #3: The presence of a waste oil UST associated with the present-day building from 1964 to 1990/1996 (conflicting records) with no documentation of its condition upon its removal is a REC for the Property. -REC #4: The presence of hydraulic lifts with an in-ground oil reservoir/tank used for automotive servicing since the early 1960s is a REC for the Property. -REC #5: The presence of a UST fill port and vent pipe at the southeast corner of the adjacent west building with no documentation of its existence is a REC for the Property. -REC #6: The presence of a service station on the adjacent west property during the 1950s or earlier to the 1960s is a REC for the Property. Based on the identified RECs, it is recommended that a Phase II ESA be conducted prior to redevelopment to further evaluate the presence/absence and magnitude of potential impacts at the Property.

Map Scale:	Not reported
Point of Reference:	Not reported
Highlights:	The Property consists of approximately 0.74 acres of land identified by Spokane County as parcel no. 35202.0306, which is developed with a 11,298 square-foot building with approximately 2,592 square-foot of second floor space, constructed in 1963, and a 1,688 square-foot canopy constructed in 1964. The outdoor areas of the parcel are asphalt or concrete paved with limited landscaping. The Property is used by Downtown Auto Specialists for automotive servicing and repair and a small portion of the building is used by Ray's Computers for

DOWNTOWN AUTO SPECIALISTS (Continued) **1026464102**

vinyl records and CD sales and computer repair. Napo's Nu 2 U Auto Sales was also a tenant of the building for used auto sales until January 2020. Downtown Auto Specialists has taken over their leased space for specialty Volkswagen repair. In February 2019, Janken Properties LLC purchased the Property from Rick and Vickie Hing Wah Louie. The Louie's had owned the Property since 2011 when they purchased it from James B. and Linda A. Quinlan. The following business environmental risks (BERs) relevant to redevelopment or reuse of the Property were identified during the Phase I ESA: -Based on the age of the Property's building (circa 1963), lead-based paint and asbestos-containing material (ACM) may be present in the building. The following potential ACMs were observed during the site visit: vinyl floor tile and mastic, ceiling tiles/panels, acoustical ceiling texture ("popcorn"), and textured wallboard. A formal hazardous materials survey was not completed as part of the Phase I ESA scope of work. -Water staining and apparent mold were observed on the interior ceilings and walls of the second-floor rooms, the stairwell, and one of the showroom offices. -Many containers of chemicals were observed during the site visit, stored haphazardly throughout the Property's building, including eight drums of used oil stored outdoors without secondary containment. No leaks or staining were observed from the drums. We have performed this Phase I ESA of the Property in conformance with the scope and limitations of ASTM International (ASTM) Practice E1527-13. Any exceptions to, or deletions from, this practice are described in the Data Gaps section of this report. This assessment has revealed the following evidence of recognized environmental conditions (RECs) in connection with the Property: -REC #1: The presence of a dye-works and dry cleaners with three gasoline USTs as well as potentially three separate gasoline aboveground storage tanks (ASTs) on the Property from the early 1900s to the late 1950s is a REC for the Property. -REC #2: The presence of a service station on the Property from 1921 to the early 1960s with five gasoline USTs installed in 1940 and four USTs in 1958 (three gasoline and one waste oil), and the unknown status of the USTs, is a REC for the Property. -REC #3: The presence of a waste oil UST associated with the present-day building from 1964 to 1990/1996 (conflicting records) with no documentation of its condition upon its removal is a REC for the Property. -REC #4: The presence of hydraulic lifts with an in-ground oil reservoir/tank used for automotive servicing since the early 1960s is a REC for the Property. -REC #5: The presence of a UST fill port and vent pipe at the southeast corner of the adjacent west building with no documentation of its existence is a REC for the Property. -REC #6: The presence of a service station on the adjacent west property during the 1950s or earlier to the 1960s is a REC for the Property. Based on the identified RECs, it is recommended that a Phase II ESA be conducted prior to redevelopment to further evaluate the presence/absence and magnitude of potential impacts at the Property.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D002
Waste Description:	Corrosive Waste
Waste Code:	D003
Waste Description:	Reactive Waste
Waste Code:	D004
Waste Description:	Arsenic
Waste Code:	D005
Waste Description:	Barium
Waste Code:	D006
Waste Description:	Cadmium

WA WSU SPOKANE RIVERPOINT CAMPUS (Continued) **1001969691**

Waste Code: D007
Waste Description: Chromium

Waste Code: D008
Waste Description: Lead

Waste Code: D009
Waste Description: Mercury

Waste Code: D010
Waste Description: Selenium

Waste Code: D011
Waste Description: Silver

Waste Code: D022
Waste Description: Chloroform

Waste Code: F001
Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichlorethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents

WA WSU SPOKANE RIVERPOINT CAMPUS (Continued) **1001969691**

Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: P001
Waste Description: 2h-1-Benzopyran-2-One, 4-Hydroxy-3-(3-Oxo-1-Phenylbutyl)-, & Salts, When Present At Concentrations Greater Than 0.3% (Or) Warfarin, & Salts, When Present At Concentrations Greater Than 0.3%

Waste Code: P075
Waste Description: Nicotine, & Salts (Or) Pyridine, 3-(1-Methyl-2-Pyrrolidinyl)-,(S)-, & Salts

Waste Code: P081
Waste Description: 1,2,3-Propanetriol, Trinitrate (R) (Or) Nitroglycerine (R)

Waste Code: P105
Waste Description: Sodium Azide

Waste Code: P188
Waste Description: Benzoic Acid, 2-Hydroxy-, Compd. With (3as-Cis)-1,2,3,3a,8,8a-Hexahydro-1,3a,8-Trimethylpyrrolo[2,3-B]Indol-5-Yl Methylcarbamate Ester (1:1) (Or) Physostigmine Salicylate

Waste Code: P204
Waste Description: Physostigmine (Or) Pyrrolo[2,3-B]Indol-5-Ol, 1,2,3,3a,8,8a-Hexahydro-1,3a,8-Trimethyl-Methylcarbamate (Ester), (3as-Cis)-

Waste Code: U002
Waste Description: 2-Propanone (I) (Or) Acetone (I)

Waste Code: U007
Waste Description: 2-Propenamide (Or) Acrylamide

Waste Code: U010
Waste Description: Azirino [2',3':3,4]Pyrrolo[1,2-A]Indole-4,7-Dione, 6-Amino-8-[[(Aminocarbonyl)Oxy]Methyl]-1,1a,2,8,8a,8b-Hexahydro-8a-Methoxy-5-Methyl-, [1as-(1aalpha, 8beta, 8aalpha, 8balpha)]- (Or) Mitomycin C

Waste Code: U026
Waste Description: Chlornaphazin (Or) Naphthalenamine, N,N'-Bis(2-Chloroethyl)-

Waste Code: U035
Waste Description: Benzenebutanoic Acid, 4-[Bis(2-Chloroethyl)Amino]- (Or) Chlorambucil

Waste Code: U039
Waste Description: P-Chloro-M-Cresol (Or) Phenol, 4-Chloro-3-Methyl-

Waste Code: U044
Waste Description: Chloroform (Or) Methane, Trichloro-

Waste Code: U051
Waste Description: Creosote

Waste Code: U052
Waste Description: Cresol (Cresylic Acid) (Or) Phenol, Methyl-

WA WSU SPOKANE RIVERPOINT CAMPUS (Continued) **1001969691**

Waste Code: U058
Waste Description: 2h-1,3,2-Oxazaphosphorin-2-Amine, N,N-Bis(2-Chloroethyl)Tetrahydro-, 2-Oxide (Or) Cyclophosphamide

Waste Code: U059
Waste Description: 5,12-Naphthacenedione, 8-Acetyl-10-[(3-Amino-2,3,6-Trideoxy)-Alpha-L-Lyxo-Hexopyranosyl)Oxy]-7,8,9,10-Tetrahydro-6,8,11-Trihydroxy-1-Methoxy-, (8s-Cis)- (Or) Daunomycin

Waste Code: U089
Waste Description: Diethylstilbesterol (Or) Phenol, 4,4'-(1,2-Diethyl-1,2-Ethenediyl)Bis, (E)-

Waste Code: U129
Waste Description: Cyclohexane, 1,2,3,4,5,6-Hexachloro-, (1alpha, 2alpha, 3beta, 4alpha, 5alpha, 6beta)- (Or) Lindane

Waste Code: U131
Waste Description: Ethane, Hexachloro- (Or) Hexachloroethane

Waste Code: U132
Waste Description: Hexachlorophene (Or) Phenol, 2,2'-Methylenebis[3,4,6-Trichloro-

Waste Code: U133
Waste Description: Hydrazine (R,T)

Waste Code: U150
Waste Description: L-Phenylalanine, 4-[Bis(2-Chloroethyl)Amino]- (Or) Melphalan

Waste Code: U155
Waste Description: 1,2-Ethanediamine, N,N-Dimethyl-N'-2-Pyridinyl-N'-(2-Thienylmethyl)- (Or) Methapyrilene

Waste Code: U164
Waste Description: 4(1h)-Pyrimidinone, 2,3-Dihydro-6-Methyl-2-Thioxo- (Or) Methylthiouracil

Waste Code: U182
Waste Description: 1,3,5-Trioxane, 2,4,6-Trimethyl- (Or) Paraldehyde

Waste Code: U187
Waste Description: Acetamide, N-(4-Ethoxyphenyl)- (Or) Phenacetin

Waste Code: U188
Waste Description: Phenol

Waste Code: U200
Waste Description: Reserpine (Or) Yohimban-16-Carboxylic Acid, 11,17-Dimethoxy-18-[(3,4,5-Trimethoxybenzoyl)Oxy]-, Methyl Ester, (3beta, 16beta, 17alpha, 18beta, 20alpha)-

Waste Code: U201
Waste Description: 1,3-Benzenediol (Or) Resorcinol

Waste Code: U205
Waste Description: Selenium Sulfide (Or) Selenium Sulfide Ses2 (R,T)

WA WSU SPOKANE RIVERPOINT CAMPUS (Continued) **1001969691**

Waste Code: U206
Waste Description: D-Glucose, 2-Deoxy-2-[[(Methylnitrosoamino)-Carbonyl]Amino]- (Or) Glucopyranose, 2-Deoxy-2-(3-Methyl-3-Nitrosoureido)-,D- (Or) Streptozotocin

Waste Code: U237
Waste Description: 2,4-(1h,3h)-Pyrimidinedione, 5-[Bis(2-Chloroethyl)Amino]- (Or) Uracil Mustard

Waste Code: U239
Waste Description: Benzene, Dimethyl- (I,T) (Or) Xylene (I)

Waste Code: U248
Waste Description: 2h-1-Benzopyran-2-One, 4-Hydroxy-3-(3-Oxo-1-Phenyl-Butyl)-, & Salts, When Present At Concentrations Of 0.3% Or Less (Or) Warfarin, & Salts, When Present At Concentrations Of 0.3% Or Less

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110070747568

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

OTIS ELEVATOR CO (Continued) **1000838149**

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:

Registry ID: 110070734736

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database

Registry ID: 110005306445

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the

COLVILLE SDA CHURCH-WELL #1 - 178529 (Continued) **1000920636**

Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Safe Drinking Water Information System contains information about public water systems and their violations of EPA's drinking water regulations.

Registry ID: 110049778923

Waste Stream Comments:
CORB Waste Sequence Number: 153550
Comments: G19: This waste is from undergraduate academic lab procedures. 2015 included waste codes D022 and D036
Waste Sequence Number: 3363130
Sequence Number: 1

Comments: Additional Federal waste codes: D022, F003, F005 G19: This waste is from undergraduate academic lab procedures.
Waste Sequence Number: 3363131
Sequence Number: 1

Comments: A-7: The G15 Source code is a very poor description of this waste source, however it was the closest one that would allow it to be 'non-recurring', which this waste stream is. The best source code for this waste stream is G11. G19 would also have been acceptable. I fail to see how a source code that says "Other one-time..." is non-recurring. It literally says "one-time" which is the very definition of non-recurring.
Waste Sequence Number: 3363183
Sequence Number: 1

Comments: A-7: The G15 Source code is a very poor description of this waste source, however it was the closest one that would allow it to be 'non-recurring', which this waste stream is. The best source code for this waste stream is G06. G19 would also have been acceptable. I fail to see how a source code that says "Other one-time..." is non-recurring. It literally says "one-time", which is the very

COLVILLE SDA CHURCH-WELL #1 - 178529 (Continued) **1000920636**

definition of non-recurring.
Waste Sequence Number: 3363184
Sequence Number: 1

Comments: Calcium Hypochlorite A-7: The G15 Source code is a very poor description of this waste source, however it was the closest one that would allow it to be 'non-recurring', which this waste stream is. The best source code for this waste stream is G11. G19 would also have been acceptable. I fail to see how a source code that says "Other one-time..." is non-recurring. It literally says "one-time", which is the very definition of non-recurring.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:
Registry ID: 110070734726

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
All generators and treatment, storage, and disposal (TSD) facilities who handle hazardous waste are required to report to the EPA Administrator at least once every two years. The data collected is used to create the National Biennial Resource Conservation and Recovery Act (RCRA) Hazardous Waste Report. This data is processed within the RCRA Information (RCRAInfo) database
Registry ID: 110005330766

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

US BROWNFIELDS:
Name: WASHINGTON STATE UNIVERSITY - GREEN 6 PARKING LOT
Address: 624 EAST FRONT AVENUE
Recipient name: City of Spokane
Grant type: Assessment
Region: 10
Property Number: 35175.0041
Parcel size: 3.15
Latitude: 47.66032451
Longitude: -117.4014702
HCM Label: Not reported
Map Scale: Not reported
Point of Reference: Not reported
Highlights: The Property is owned by WSU Spokane and consists of approximately 2.91 acres of land in the University District of Spokane. The Property is located within a larger parcel at Spokane County Parcel ID# 35175.0041 and it is developed with the WSU Spokane Green 6 Parking Lot with sidewalks and landscaping. The Property is bounded by the Jensen Byrd Company building, a vacant lot, and WSU Health Sciences building to the north; WSU parking and pedestrian walkways to the east; railroad lines to the south; and multiple buildings (Technology Center, JMK Offices, and River City Auto Body and Paint) to the west. The Property is zoned Downtown University (DTU) and surrounding properties are a mix of commercial and industrial properties. The Property was developed and operated as a railyard prior to 1902 until the late 1980s. Historical uses of the Property include railroad spurs and railroad-related operations (warehousing and truck staging). A major feature approximately 350 feet north of the Property was the Riverpoint Trench (also known as the Milwaukee Trench or the Great Northern Railroad Trench), which is described as extending from Division Street eastward approximately 1,500 feet on the northern side of East Spokane Falls Boulevard (formerly East Trent Avenue) at a depth of approximately 17 to 20 feet and approximately 125 feet wide. The Milwaukee Railroad operated an active railroad line through the Riverpoint Trench from the early 1900s until the late 1980s. Extensive environmental investigation and remediation was performed within the former trench, which was filled with contaminated materials from vicinity industrial properties during redevelopment. Soil from the trench was land spread on the Property as a part of a remedial action on the trench property. An underground storage tank (UST) associated with the adjacent Jensen Byrd property was identified near the northwest corner of the Property and was reportedly operational from 1963 to 1996 when it was closed in place. Vicinity properties were used for a variety of industrial activities including a large railyard, municipal incinerator, municipal asphalt plant, brewery, and metal salvage yard, among other industrial uses

The Property was developed and operated as a railyard prior to 1902 until the late 1980s. Historical uses of the Property include railroad spurs and railroad-related operations (warehousing and truck staging). A major feature approximately 350 feet north of the Property was the Riverpoint Trench (also known as the Milwaukee Trench or the Great Northern Railroad Trench), which is described as extending from Division Street eastward approximately 1,500 feet on the northern side of East Spokane Falls Boulevard (formerly East Trent Avenue) at a depth of approximately 17 to 20 feet and approximately 125 feet wide. The Milwaukee Railroad operated an active railroad line through the Riverpoint Trench from the early 1900s until the late 1980s. Extensive environmental investigation and remediation was performed within the former trench, which was filled with contaminated materials from vicinity industrial properties during redevelopment. Soil from the trench was land spread on the Property as a part of a remedial action on the trench property. An underground storage tank (UST) associated with the adjacent Jensen Byrd property was identified near the northwest corner of the Property and was reportedly operational from 1963 to 1996 when it was closed in place. Vicinity properties were used for a variety of industrial activities including a large railyard, municipal incinerator, municipal asphalt plant, brewery, and metal salvage yard, among other industrial uses

Highlights:	The Property is owned by WSU Spokane and consists of approximately 2.91 acres of land in the University District of Spokane. The Property is located within a larger parcel at Spokane County Parcel ID# 35175.0041 and it is developed with the WSU Spokane Green 6 Parking Lot with sidewalks and landscaping. The Property is bounded by the Jensen Byrd Company building, a vacant lot, and WSU Health Sciences building to the north; WSU parking and pedestrian walkways to the east; railroad lines to the south; and multiple buildings (Technology Center, JMK Offices, and River City Auto Body and Paint) to the west. The Property is zoned Downtown University (DTU) and surrounding properties are a mix of commercial and industrial properties. The Property was developed and operated as a railyard prior to 1902 until the late 1980s. Historical uses of the Property include railroad spurs and railroad-related operations (warehousing and truck staging). A major feature approximately 350 feet north of the Property was the Riverpoint Trench (also known as the Milwaukee Trench or the Great Northern Railroad Trench), which is described as extending from Division Street eastward approximately 1,500 feet on the northern side of East Spokane Falls Boulevard (formerly East Trent Avenue) at a depth of approximately 17 to 20 feet and approximately 125 feet wide. Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D008
Waste Description:	Lead
Waste Code:	F002
Waste Description:	The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane,

SPOKANE CNTY ENGINEERS TRAFFIC (Continued) **1000878415**

Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

SPRAGUE & SHERMAN (Continued) **1001031648**

Environmental Interest/Information System:
The Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Department of Ecology. The system contains key information for each facility/site that is currently, or has been, of interest to the departments air quality, dam safety, hazardous waste, toxic cleanup, and water quality programs.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
